

## 3 in 1 Piston Air Compressor / Generator / Welder

- 14HP KOHLER® Command Pro Gas Engine with Electric Start
- Pressure Lubricated, two-stage pump delivers a continuous flow of oil to critical engine components
- 5000W continuous run generator / 6000 surge watts
- Two 120V, 20 AMP Outlets / One 240 Volt Outlet
- Two-stage pump features industrial disc valves for extended life and easy maintenance
- Solid cast-iron pump means maximum durability
- Liquid filled gauges
- Rubber vibration isolator pads
- Heavy duty steel belt guard
- 20 gallon ASME air tanks
- DC 190AMP stick welder with 25' leads
- DC jumpstarter
- Built-in regulator
- Quick disconnect
- Solid pneumatic tires for portable use
- Wheels & handles are removable for stationary installation

TECHNICAL SPECIFICATIONS	
Running HP	14
CFM 175 PSI	17
Max PSI	175
Pump Model	Pressure Lubricated Piston
Engine Type	Kohler Command Pro Series
Dimensions	46" L x 29 1/2" D x 37 1/2" H
Generator Volts	120/240
Generator Watts	5000 Continuous
